The game isreleased on PlayStation 2, PlayStation 3, Wii and Xbox 360, and also for Microsoft Microsoftand Apple Macintosh personal computer. Guitar Hero III presents 73 songs on the media of the game; This includes 39 single-player songs, three songs "Boss Battle", six exclusive songs of co-op career, and 25 bonus songs. The Xbox 360 and PlayStation 3 versions support downloadable content in the form of new songs for the game. As of September 12, 2008, there are 59 songs available as downloadable content for both platforms, bringing the total number of songs available for these versions to 132. Four downloadable songs were only available for a limited time. The Xbox 360 and PlayStation 3 versions have an exclusive song. Guitar Hero III's main setlist features 73 songs distributed in both Solo and Co-Op Career modes. [1] These songs are arranged in eight sequential levels based on their relative difficulty. The player must complete some or all songs in one level (based on the selected career difficulty), including the Encore, to access the next. During Solo Career mode, the player will also meet three Boss Battles, a new mode introduced in Guitar Hero III, at the end of three levels as listed below, before performing the song Encore. The player must try Boss Battle three times, but after the third time the player has the opportunity to pass Boss Battle to continue the progression in the game. However, this option is only available for the first two boss battles (Slash and Tom Morello). In Co-Op Career mode, players only run the top six levels, do not meet any Boss Battles, and have several Encore songs from Solo Career mode. [2] Once a level of difficulty levels is open, all songs except songs Encores and Boss Battle become available for all other modes of play; Encore songs become available once completed. The Three Songs by Boss Battleare playable outside the Solo Career mode. However, these songs were available as free download content for Xbox 360 and PlayStation 3 3of the game. All songs (except Boss Battles) can be unlocked for all modes through special cheating codes for the game, as, for example, allow a solo player to access Co-Op Encore songs without having to play through the Co-Op mode. [2] Being based on the same engine as Guitar Hero III's seventh generation versions, Guitar Hero Arcade presents a series of 50 songs chosen by the main, bonuses and downloadable content lists.
